

Test stand

for testing washing machines, washer-dryers, dryers and dishwashers in terms of energy efficiency

Test stand consists of several automated workstations (AWS) with the ability to connect the tested equipment.

Each AWS includes:

- Power supply system
- Local water supply from the water treatment equipment
- Measuring equipment
- Software that covers the full test cycle for compliance with standards in automatic mode

European Committee standards

EN 60456:2011

EN 50564:2011

EN 50229:2007

EN 61121:2013

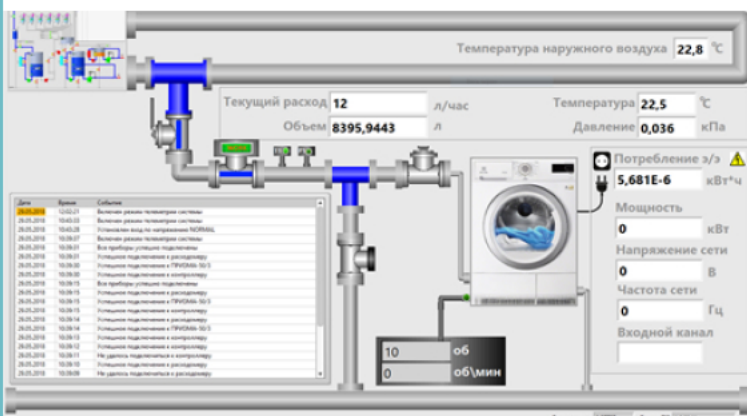

Easy start

- ⚡ Connect equipment with PC
- ⚡ Select a task from the list
- ⚡ Press START and follow the instructions in the software

Advantages

- ⚡ Easy to learn
- ⚡ Quick start
- ⚡ Automated measurements
- ⚡ Automatic creation and saving of the protocol in the database
